RESPONSE TO RESTRICTION REQUIREMENT

SIR:

Responsive to the Office Action of March 15, 2006, applicants hereby elect claims 1-3 and 15-20 for prosecution at this time.

This election is made with traverse, because the inventions of Groups I and II have been incorrectly characterized as combination and subcombination, respectively. Rather, the groups should be characterized as genus and species. More particularly, the first cylinder of claim 1 may be implemented as the folding cylinder of claim 4, and the second cylinder of claim 1 may be implemented as the folding jaw cylinder of claim 4. Independent claims 1 and 4 can both be read on the same embodiment. "Where the claims of an application define the same essential

characteristics of a single disclosed embodiment of an invention, restriction therebetween should never be required." MPEP 806.03.

Withdrawal of the requirement and consideration of all claims is solicited.

Any additional fees or charges required at this time in connection with the application may be charged to our Patent and Trademark Office Deposit Account No. 03-2412.

Respectfully submitted,

COHEN PONTANI LIEBERMAN & PAVANE LLP
